**Tools & Methods:** Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

**Professional:** Remote Pair-Programming, Detail-oriented, Adaptability, Error detection, and correction.

## EXPERIENCE

### Microverse

#### Technical Support

January 2022 – present

- Mentoring new web developers through code reviews.
- Provide tips to improve project structure to improve quality and performance based on the latest coding standard.
- Provide support to students via Zoom and Slack.

### HIGHLIGHTED PERSONAL PROJECTS

October 2020 – present

**Hotelzilla** – web application for reserving a hotel. Users have a list of hotels on the home page, Users can see details of each hotel, Users can reserve a room in the hotel, Users can log in, log out and sign up, and they can add or delete hotels if Users are admin.

- Built with: Ruby, Ruby on Rails, PostgreSQL, React, Redux, Redux Toolkit, Tailwind CSS.

**Twitter Clone** – Graduation project with a team from ITI cloning some features from the Twitter website using Web API Core as Backend, Angular Framework as Frontend, and Node JS as an external application for chatting.

- Built with: HTML, CSS, Bootstrap, Angular, TypeScript, .Net Core, Node Js.

**Ecommerce(StyleFord)** – E-commerce website using Web API Core as Backend and Angular Framework as Frontend for managing user cart and wishlist if the user authorized.

- Built with: HTML, CSS, Bootstrap, Angular, TypeScript, .Net Core.

## EDUCATION

### MICROVERSE

October 2021 – May 2022

#### Remote Full-stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developing skills in remote pair-programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

### Information Technology Institute (ITI) 9-Month

September 2020 – June 2021

#### Full-stack development

- Spent more than 1000 hours mastering full-stack web development using Angular, .Net core, MVC, and MVC Core.

### Faculty of computer and technology

September 2014 – July 2018

#### Computer science

Spent 4 years studying tech's latest technologies including operating systems, web, algorithms, and data structures.
